New Haven, Dec. 27th 1854.

Rev. and Dear Sir,

I regret that it is not in my power to communicate any important information, in answer to the inquiries in your note of the 25th. I well recollect being very kindly entertained at your father's, when I called there, many years since, in company with President Dwight. But I do not remember that he gave any biographical notices of your father, except speaking of him in terms of high respect. As he was graduated at Yale in 1773, the year of my birth, I had no opportunity of becoming acquainted with the early portion of his public life. I never was in New Haven till I entered college in 1789, when I find, from the Connecticut Register, that he was a Minister in Southington.

With high regard,
Your friend & serv.
J. Day

Rev. Dr. Robinson.
